About Us

Indus Parking Services is one of India's leading parking enforcement companies, renowned for delivering professional and reliable parking management solutions nationwide. Our vision is to eliminate parking misconduct across India and streamline traffic flow in residential, commercial, and institutional parking areas.

Our head office is located in the heart of Gurugram, with satellite offices operating across the country. We are an authorised organisation supported by a team of highly skilled and dedicated professionals.

We aim to bring a revolution to private parking management by making parking spaces more efficient, structured, and motorist-friendly. Parking violations are addressed through strict enforcement of parking terms and conditions. When a vehicle is found in breach of clearly displayed rules—such as parking in a no-parking zone—wheel clamping is implemented. Unauthorised motorists are required to pay a penalty fee to have the clamp removed.

We serve a wide range of industries, including retail, healthcare, hospitality, education, residential societies, and business parks. Indus Parking Services is a full-fledged parking enforcement firm based in Gurugram. Our trained patrolling officers monitor sites continuously to ensure parking spaces are not misused.

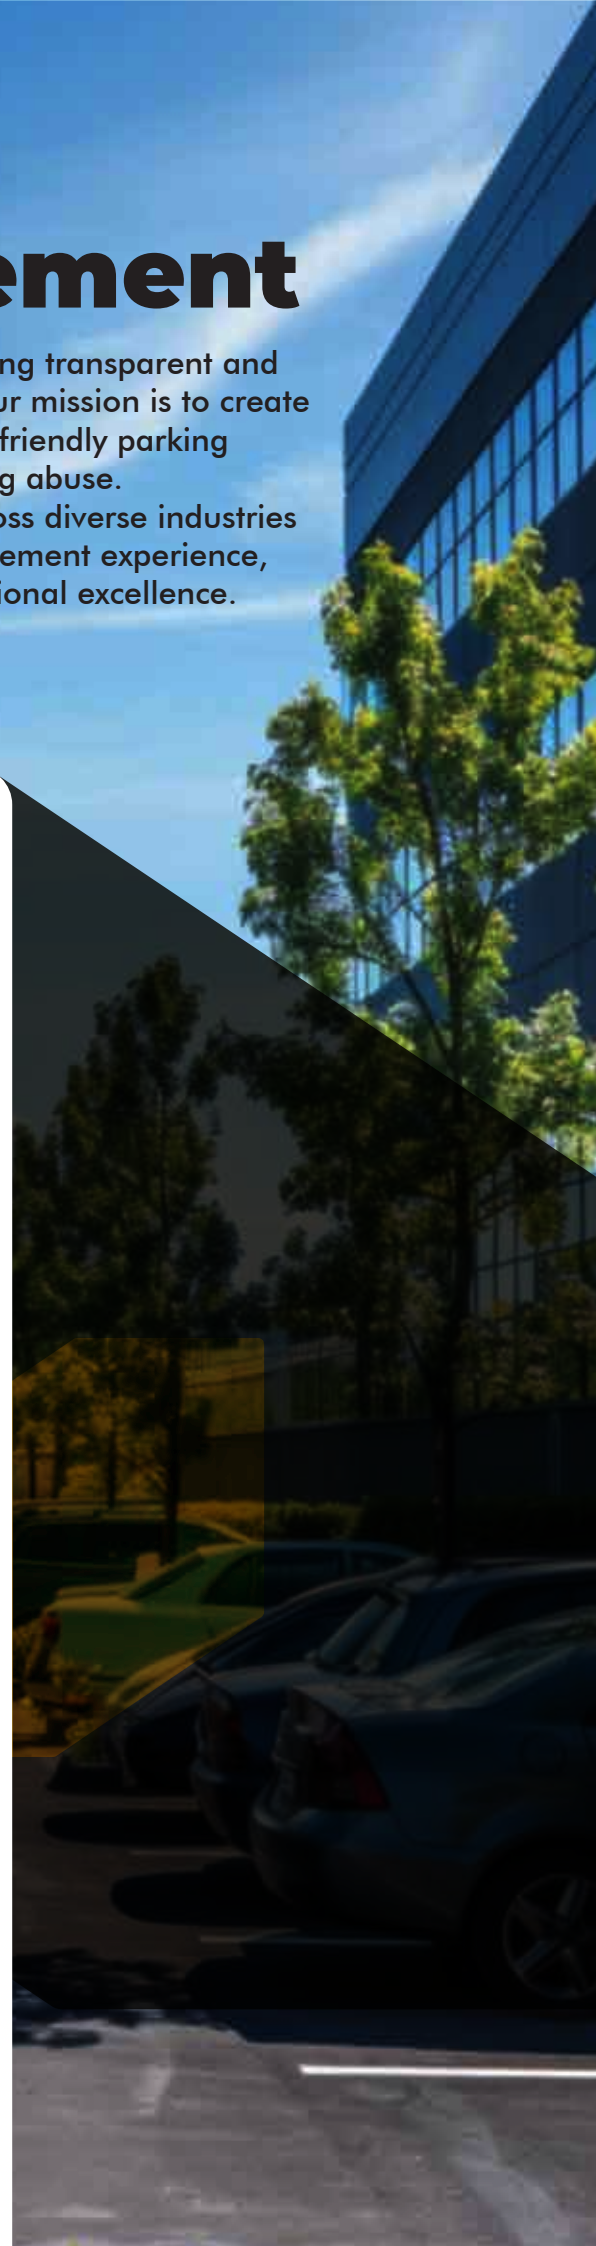

Even if your car park is currently managed by another parking operator, Indus Parking Services can provide enforcement support. We install compliant parking signage to ensure motorists are fully informed of site-specific terms and conditions. Please feel free to contact us if you wish to maintain a congestion-free and well-managed parking facility.

Mission Statement

Indus Parking Services is committed to delivering transparent and personalised parking management solutions. Our mission is to create well-organised, congestion-free, and user-friendly parking environments by eliminating parking abuse.

We strive to provide parking facility owners across diverse industries with a seamless and efficient car park management experience, ensuring enhanced productivity and operational excellence.

Boost Your Car Park's Security with Our **Cashless Parking Payment Machines**

Struggling to manage your car park and prevent unauthorised parking? Looking for a smart way to generate additional revenue from your parking facility? Facing recurring issues with outdated or inefficient Cashless Parking Payment Machines? Don't worry — we've got you covered!

At Indus Parking Services, we offer next-generation Cashless Parking Payment Machines tailored to meet the diverse requirements of every car park. Whether you're running a busy supermarket, managing hotel parking, operating medical facilities, or handling a residential or retail space — our solutions are engineered for efficiency, security, and customer convenience.

Benefits & Key Features of Cashless Parking Payment Machines

- | | |
|--|---|
|  Cashless Transaction |  User-Friendly Touchscreen Interface |
|  ANPR Camera Integration |  Remote Monitoring Enabled |
|  Increases Profitability |  Customisable Software Options |
|  Vandal-Resistant and Weatherproof (IP65) |  Solar Installation |
|  Front and Back Office Access |  Maximises Car Park Utilisation |
|  Ticketless, Digital System reduces Waste and Cost |  Reduces Unauthorised Parking |

Manage your car park with our **ANPR Parking Enforcement Solution**

Our Automatic Number Plate Recognition (ANPR) systems utilise cutting-edge technology to capture and process vehicle registration numbers automatically. By installing cameras at strategic locations within your car park, we can monitor vehicle entry and exit times, enforce parking regulations, and enhance overall security. This advanced and cost-effective solution is designed to significantly reduce unauthorised parking while improving accessibility and convenience for genuine users. Whether you're aiming to streamline operations, improve compliance, or create a safer parking environment, our ANPR system offers a reliable and efficient way to take full control of your car park.

Benefits of ANPR Enforcement

Our innovative ANPR cameras offers a wide range of benefits for businesses.

Calculates Parking Time.

Specialised Number Plate Recognition Cameras.

Live Monitoring: 365 Days a Year.

Restricts Intruders with Cashless Parking Payment Machine Integration.

Stops Unauthorised Parking.

Ideal for Large Parking Facilities.

Improves Onsite Security.

Parking Wardens

Our trained and professional parking wardens play a vital role in day-to-day enforcement of parking terms and conditions. Their visible on-site presence deters misuse, prevents unauthorised parking, and compels motorists to comply with parking terms.

By actively monitoring parking spaces, our wardens help reduce congestion, improve vehicle flow, and enhance the overall safety and experience for both customers and staff. This service is tailored to meet the specific needs of each client, offering a reliable enforcement solution that provides an efficient car park management and protects your business's reputation.

Benefits and Key Features

Prevents Theft and Vandalism: The presence of parking wardens deters misdemeanors like theft and vandalism, and improves the security of vehicles and motorists.

Reinforces Parking Compliance: Informs motorists about the parking terms and makes it clear that unauthorised vehicles are subject to enforcement action.

Customised Service for Every Site: Warden operations are adapted to suit the layout, footfall, and specific challenges of each car park for maximum effectiveness.

Improves Customer and Staff Confidence: A well-managed and visibly supervised car park provides peace of mind, improving overall satisfaction for users of your facility.

Barriers for Parking Management

Barriers play a crucial role in modern parking management across India by enabling controlled vehicle entry and exit, reducing congestion, and improving revenue assurance. Inudu Parking Services provides barriers that can be integrated with cashless parking payment machines and ANPR (Automatic Number Plate Recognition) cameras. Barrier systems help automate the entire parking workflow—right from vehicle identification to payment verification—minimising manual intervention, leakage, and operational inefficiencies while enhancing user convenience.

Benefits and Key Features

Enables controlled and secure entry/exit of vehicles, reducing unauthorised parking.

Seamlessly integrates with cashless parking payment machines (FASTag, UPI, cards, QR) for automated barrier opening after payment.

Works with ANPR cameras to identify vehicles, calculate parking duration, and enable ticketless parking.

Reduces manpower dependency and operational errors through automation.

Improves traffic flow and reduces queues at parking entrances and exits.

Provides accurate data and reports for better parking management and revenue tracking.

Sectors We Serve

Health Care Sector

Healthcare facilities experience high daily footfall, making effective parking management essential. Poorly managed parking can obstruct emergency access and disrupt operations. Our enforcement services help hospitals and clinics maintain clear access routes and prevent parking violations.

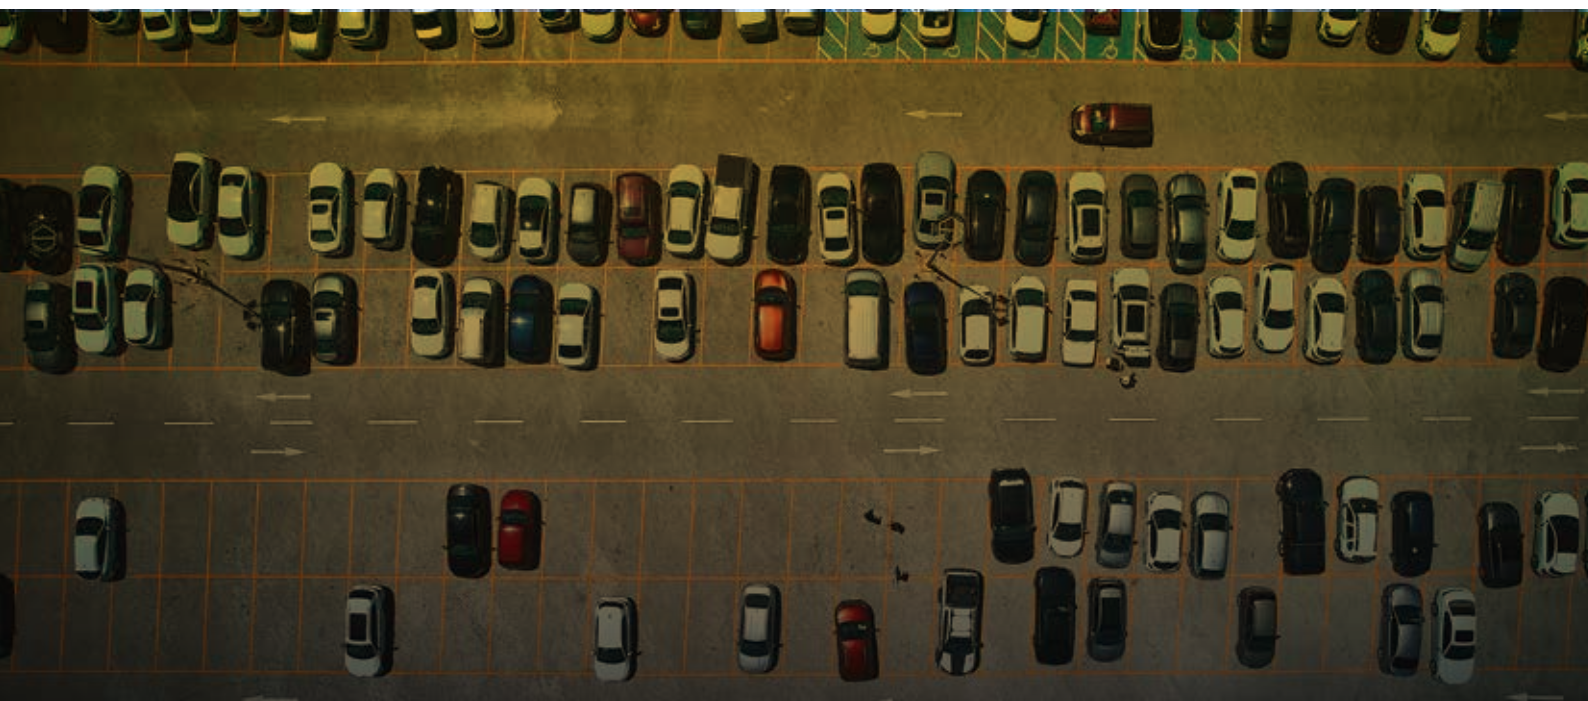

The Education Sector

Managing parking at schools, colleges, and universities is challenging. Parking abuse disrupts traffic flow and inconveniences students and staff. Indus Parking Services delivers structured enforcement solutions to maintain order and maximise parking efficiency.

The Retail Sector

Inadequate parking management at retail locations leads to customer dissatisfaction and lost revenue. Vehicles blocking shop entrances deter footfall. Our services ensure obstruction-free access, improved customer experience, and increased retail revenue.

Residential Societies & Housing Complexes

Unauthorised parking in residential areas is a persistent issue. Our enforcement solutions help societies maintain allocated parking discipline, ensuring spaces remain available for authorised residents.

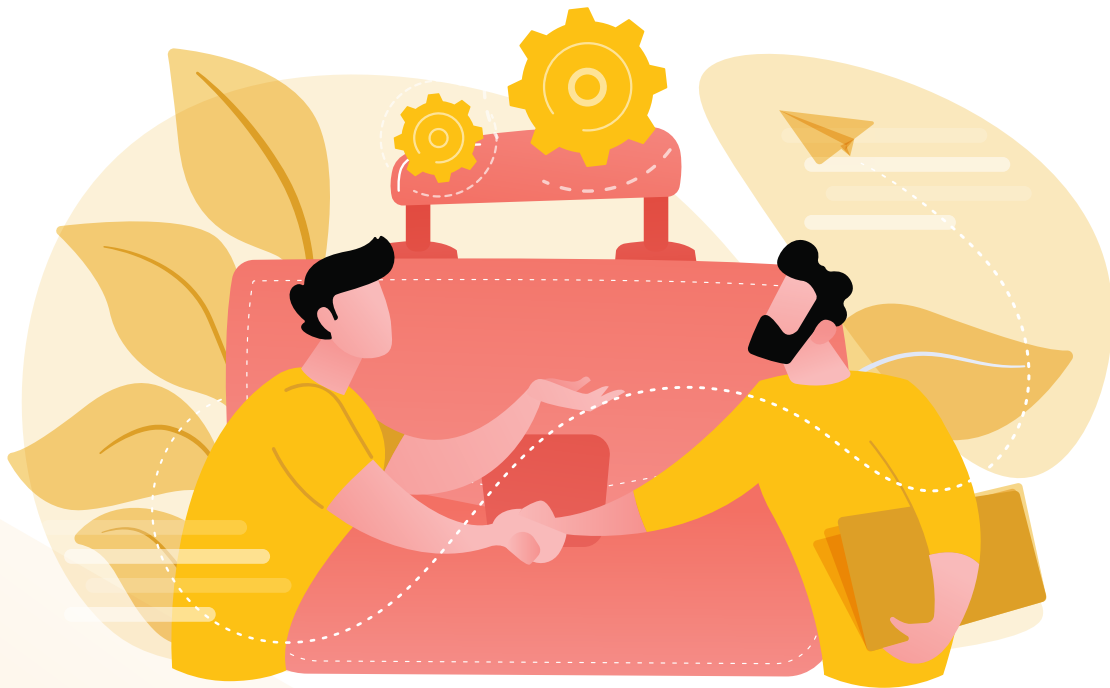

Business & Industrial Park

Efficient parking is essential for uninterrupted business operations. Our enforcement services help businesses regulate parking usage, reduce congestion, and maintain smooth traffic flow for employees and visitors.

Our onboarding process

We genuinely care about making your onboarding experience as smooth as possible. Our simple, easy, and straightforward four-step process aims to provide you with a seamless transition and top-notch service from start to finish. Let's collaborate to make your parking operations started with:

Free site evaluation:

We begin with a free site visit and assess the site thoroughly to understand what your parking space requires. This allows us to plan your facility and personalise our solutions to meet your unique needs.

Proposal for submission:

After we have evaluated your site, we prepare and submit a detailed proposal tailored to your specific needs. We are dedicated to providing you with the most feasible option.

Sign the agreement :

If you are satisfied with the proposal, we will proceed with all the necessary paperwork. You will sign the documents and formalise our partnership, allowing us to get started on the installment.

Site launch:

Once we are done with the paperwork, we will implement the solutions within the next three to four weeks, and your site will be ready for effective parking operations and bid adieu to your parking challenges.

Yes, it is that simple! Scan the QR code and fill in the requirements on the website, and we will reach out to you in the next 24 business hours.

Accreditations

Indus Parking Services complies with all applicable government rules and regulations to ensure ethical, lawful, and professional parking enforcement.

We are accredited by the Indian Parking Association (IPA) and are proud subscribers to the Indian Independent Appeal Services (IIAS). These organisations guide parking enforcement companies to operate fairly, ethically, and in full compliance with regulatory standards.

The Indian Independent Appeal Services (IIAS) is an independent body that reviews penalties issued by subscribed enforcement companies, providing motorists with the opportunity to appeal parking charges. Our team comprises trained and qualified professionals who strictly follow the prescribed codes of conduct. All enforcement activities are carried out legally and respectfully. Our staff are trained in conflict resolution, and we use high-quality wheel-clamping equipment to ensure durability and prevent unauthorised removal. Indus Parking Services consistently meets all statutory requirements for lawful parking enforcement. Let's Make the **Environment** **Greener**

Indus Parking Services has taken an initiative to make the environment greener. Every time, we occupy a site for parking enforcement, we plant a tree. Plants are the lungs of the Earth; more plants lead to healthier & more breathable air. So, be our partner by giving the responsibility to enforce parking terms and conditions on your private site and we will plant a tree on your behalf for the betterment of the environment.
